Florence and Tuscany possess a diversity of attractions for every visitor: from Renaissance works to a multitude of elegant and design shops; from tours of the Tuscan hills with their historic populations, wineries and restaurants with charm, to visits to one of its cities for relaxation. This eighth edition of Florence and Tuscany Visual Guides puts all the information we need to visit these two Italian regions: hotels, villas, restaurants, gastronomy, museums, churches, theaters, art... in addition to varied itineraries accompanied by their corresponding plans. It includes more than 1,000 photographs, aerial views in 3 dimensions and a complete street map of Florence.
