[\*\*PREPARATION OF ORDERS. WORK BOOK.epub\*\*](#)

This volume is used as a complement of the theoretical handbook of the teaching program “Preparation of orders”. It contains the practical material designed to provide support to any training activity. The content of the workbook is based on practices and self assessments directed to the student, which provides the acquisition of needed professional competences in this case. Its arrangement is the following:•Methodological guide•Self assessment questionnaire•Self assessment Exercises
